

A photograph of two construction workers on a site. They are wearing yellow hard hats and high-visibility yellow safety vests over light-colored work shirts. The worker on the left is pointing upwards with his right hand, while the worker on the right holds a black clipboard. They are both looking up towards a large crane structure in the background. The image is set against a blue background with geometric shapes on the left and bottom-left corners.

JOHN CRANE MEDIA KIT

About John Crane

- Founded more than 100 years ago, John Crane is a global leader in rotating equipment solutions, supplying mission critical flow control technologies and services to process industries for increased efficiency, emissions reduction and energy transformation.
- John Crane designs and manufactures a variety of products, including mechanical seals and systems, couplings, filtration systems and digital diagnostics technologies.
- Customer service is accessed through a global network of more than 200 sales and service facilities in over 50 countries.
- John Crane is part of Smiths Group, a global leader in applying advanced technologies for markets in threat and contraband detection, energy, communications, and engineered components.

Our Vision

Be a global leader in providing mission-critical technologies and services to process industries

Our Mission

Prevent leaks in mission-critical process industries, improving our customers' reliability and sustainability

Global Network & Technical Expertise

More than 200 sales and service facilities in more than 50 countries — largest service footprint

16 super service centers and 12 turbo service centers

19 manufacturing sites in 10 countries

475 CNC machine tools around the world

5 global R&D centers — US (1), UK (2), Germany (1), Netherlands (1)

115 test rigs globally
